

Oxford International Primary Maths: Stage 6: Age 10 -11: Student Workbook 6: Stage 6, age 10-11

By Caroline Clissold, Linda Glithro, Janet Rees, Cherri Moseley, Anthony Cotton

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Oxford International Primary Maths: Stage 6: Age 10 -11: Student Workbook 6: Stage 6, age 10-11, Caroline Clissold, Linda Glithro, Janet Rees, Cherri Moseley, Anthony Cotton, Oxford International Primary Maths takes an enquiry-based approach to learning mathematics, engaging students in the topics through asking questions that make them think, and activities that encourage them to explore and practise. As students progress through the course, they not only learn about mathematical concepts, but also how to use problem solving techniques in their approach to studying the subject. The topics are explored in careful stages, introducing different aspects at a pace that allows students to absorb and practise what they have learned. Photos, illustrations and diagrams are used to help students explore and understand, and the language is clear and easy for primary children to understand. For the teacher, the Teacher's Guides provide step-by-step notes for each lesson, guiding students through the topic, and supporting students with their language development when needed.
