Sasquatch Books. Paperback. Book Condition: new. BRAND NEW, The Northern Lights: Celestial Performances of the Aurora Borealis, Daryl Pederson, Calvin Hall, Shot with ultra-high definition cameras, this book of amazing photographs showcases a period of unusually high solar activity in the Northern Lights. The northern lights, also known as the aurora borealis, put on remarkable shows of light and motion in high latitudes - Alaska being the perfect place to see them. These new photos take full advantage of the latest advances in photographic technology and especially active solar storms of the past several years that cause the lights. With 160 images that have never been collected in book form, we are witnessing the interaction of charged particles in the earth's atmosphere clash with electrons and protons released by the sun. Photographers Calvin Hall and Daryl Pederson are dedicated aurora borealis hunters, enduring frigid nights in remote locations to get the best shots. The results are amazing.
